

Divide a 1- or 2-digit number  
by 100

Dividing by 100 is the same as dividing by  
10 then dividing by 10 again.

Divide a 1- or 2-digit number  
by 100

# True

$$27 \div 10 = 2.7 \quad \text{then} \quad 2.7 \div 10 = 0.27$$

$$27 \div 100 = 0.27$$
